

Vaccinations & Grooming

In order to maintain a safe, comfortable environment, most grooming facilities require that all pets to be current on their *rabies* and *bordatella* (kennel cough) vaccinations as well as waiting at least 48 hours after shots before proceeding with grooming. The waiting period helps to ensure your pet isn't sore at the injection site, which can cause irritability or lethargy. Please contact your groomer to find out their specific requirements before scheduling an appointment for your pet.

Do you know any groomers?

Please help us keep our list up to date by letting us know of any new or existing groomers are on the island that we do not have on our list.
